

Progress Funding – Frontend User Guide

Overview

The **Progress Funding** section on a Credit Application lets approved users upload two documents:

1. **Progress Funding Request Document**
2. **Progress Funding Promissory Note**

After each upload, TeamDesk automatically notifies the internal team and sends the related update to Aspire.

Who can use this section

The **Progress Funding** section is available only to approved users.

If you do not see this section on your Credit Application, contact your administrator or internal support team.

Note: If the ****Progress Funding**** section is not visible, your role or user access may not allow it.

Step 1 – Upload the Progress Funding Request Document

1. Open the correct **Credit Application** record.
2. Scroll to the **Progress Funding** section.

4. Save the record if prompted.

What happens next

- The internal credit team is notified automatically.
- The uploaded document is sent to Aspire automatically.

Tip: Before saving, confirm that you are working in the correct Credit Application record.

Step 2 – Upload the Progress Funding Promissory Note

1. Open the same **Credit Application** record.
2. In the **Progress Funding** section, upload your file in **Progress Funding Promissory Note**.

3. Save the record if prompted.

What happens next

- The internal funding/credit team is notified automatically.
- Aspire is updated automatically.

Progress Funding

Progress Funding Document

Progress Funding Promissory Note

Important

If you replace either uploaded file later, the system may treat it as a new submission.

That means:

- notifications may be sent again
- the Aspire update may run again

Only replace a file if you intend to resubmit it.

Warning: Re-uploading or replacing a file may submit the process again.

Tips

- Make sure you are uploading the file to the correct Credit Application.
- Double-check the file before saving.
- If the **Progress Funding** section is missing, or if you are unsure whether a file was submitted correctly, contact your administrator or support team.
